

Is HIPAA compliance giving you hypertension?

BUMI has the prescription.

BUMI'S HIPAA COMPLIANT DATA BACKUP & RECOVERY SOLUTION PROVIDES:

- Fully managed and automated off-site data protection w/ user authentication and role-based access
- Support for simple and complex restores by Sr. Level Engineers, plus 24x7 emergency support
- Proactive daily monitoring and customized notifications. If we notice an issue, we call you!
- Support for backing up mobile devices such as laptops, smartphones, and tablets
- Military-grade encryption at the source and within our two highly secure tier 4 data center locations (SSAE 16 Type I & II)
- Customizable archive and retention rules for retaining large amounts of data

BUMI has implemented policies and procedures to protect ePHI, and all of our technical staff have been trained on best practice concerning patient data. In addition, BUMI will sign a required HIPAA business associate agreement with either a covered entity or business associate to certify compliance with the new HIPAA Omnibus Rule.

Take two of these and call (866) 444-BUMI or visit go.bumi.com/free-trial to find out how we can ease the stress of HIPAA compliance.
