CORE BUSINESS SERVICES

We exist to design and implement great technology solutions for your business.

Technology should integrate seamlessly with the way your business operates, helping you do business better, faster and more easily.

Unfortunately many businesses experience the opposite effect as a result of trying to manage technology internally without the proper resources or outsourcing their needs to the wrong company.

CORE Business Services will develop a comprehensive customized solution that fits your business's needs and puts technology to work for you.

Services

Disaster Recovery

We offer a complete set of replication, onsite backup and offsite backup solutions to ensure that your business is prepared and protected for any unforeseen event, and we have the expertise required to get you back up and running as quickly as possible.

- Onsite and Offsite Backup
- Replication of Services and Information
- Recovery of Backed Up Data

Compliance

The Compliance function specializes in broker-dealer 3010-3012 Supervisory Reviews and 3011 Anti-Money Laundering Reviews, and Regulatory Compliance for international banks doing business in the United States. Regulatory Compliance includes staff training, independent Bank Secrecy Act (BSA) Reviews, preparation for and support during regulatory examinations, and development of compliance reviews and pertinent testing.
